Elmo visual presenter

This Document Camera is designed to view documents placed under the lens, displaying a paper document on the projector screen and replacing traditional transparency projectors. It functions through the “Image Mate” software on the PC.

Useful Instructions:

1. Turn on using the “Power” switch.
2. Place the document or object on the “stage”.
3. Use the buttons on the “front operation panel” to operate:
   - Zoom
   - Full Screen
   - Still Capture
   - Video Capture

Common Issues:

- Black screen in the Viewer:
  - Make sure to remove the lens cap.
  - Power the Doc Cam on BEFORE opening the software.

- Document is too dim:
  - Press the Lamp button on the base.

Other Examples:

Visit http://support.boisestate.edu and select Classroom and Lab Technologies to schedule a General Purpose Classroom equipment demonstration.
