Extron MLC 226 IP L control panel

The Extron panel functions to power on and off the projector, control volume, and switch between displays.

Useful Instructions:

1. Turn Display On. Use the Image Mute button to temporarily disable the projector display.

2. Select the source to display on the projector using the buttons on the right.

3. Use the Volume knob to control sound.

4. If the display won’t come on, sound will not play, or you have other questions or issues give us a call at 426-4357

Common Issues:

- Laptop is not displaying to projector:
  - Ensure the VGA cable is plugged securely into laptop.
  - Press Laptop button on the right side of the panel.
  - It takes several seconds, in which you may see the buttons blinking, to complete a request

Other Examples:

Visit http://support.boisestate.edu and select Classroom and Lab Technologies to schedule a General Purpose Classroom equipment demonstration.
