Eiki legacy transparency

This Overhead Projector is designed to view transparencies placed under the lens displaying the paper document on the projector screen.

Useful Instructions:

1. Turn on this Overhead Projector using the “Power” switch located on the base.

2. Place a transparency on the glass platform on top of the base.

3. Loosen the dial on the projector arm to:
   - move the magnifier closer and enlarge the image.
   - move the magnifier closer and make the image smaller.

Common Issues:

- Document won’t display:
  - Make sure the projector is plugged in and the Power switch is in the “On” position.
  - Confirm that the lamp is illuminating the transparency.
